ASSOMAC JOURNAL

*News from the National Association of Manufacturers of technologies
for manufacturing industry*

Dear Friends,

Our Country is coping with an unprecedented **health emergency**, forcing us to change our daily routine; a tough situation, an unwanted health emergency never met before in our recent history.

With the nationwide lockdown, we hope to overcome the situation as soon as possible.

Indeed, a kind of nightmare for our communities; but the **Italian manufacturers of machines and technologies**, that we are proud to represent as ASSOMAC, **go on their businesses in this moment**, with

perseverance and dedication in order to guarantee the clients services.

In these hard times, our Companies give proof of competences and skills, with the best technologies and innovations of the “Industry 4.0” paradigm. A toolbox of competences allowing them to offer cutting-edge and sustainable solutions able to ensure quality, reliability and assistance along with the supply chain.

Our sincerest **thanks** to our employees, to the national and international supply chains like footwear, tanneries, chemicals producers and the institutions that recognized in the “Italian know-how”, the engagement and the commitment of our member Companies that cherish this extraordinary “**made in Italy**” sector.

**Choose Assomac members machineries and equipments for
RELIABILITY, SAFETY, QUALITY AND SUSTAINABILITY.**
